

SPATIAL INTELLIGENCE QUESTIONNAIRE

Description

This short questionnaire aims to assess the spatial intelligence affinity of the elderly people.

Learning Objectives

- To raise awareness about spatial intelligence
- Creating conversations and exchanges about different tastes and activities
- To formulate what elderly people like or not

Time Needed

1 hour

Materials Required

This activity can be simply implemented by printing the spatial intelligence questionnaire and providing a pen or pencil to reply to it. It is also possible to do this test with an online tool, such as typeform.

Step By Step Guidance

- Explanation of the activity (10 mn)
- Filling the questionnaire (20 mn)
- Conversation exchange about the answers

Practical Tips

If the participants have difficulties to write and/or read, it is possible to adapt the activity as a group activity with a person reading out loud the questions and the participants are replying orally. The results are written on a white board for exchanges after the questionnaire.

My Training Box - From the focus groups held during this project.

Expected Results

- Identifying the spatial intelligence activities they like the most
- Assessing their spatial intelligence's affinity
